EDUCATION

2017 – 2021 **B.Tech in Mechanical Engineering**, REVA University, Bangalore, India [↗](#)

PROFESSIONAL EXPERIENCE

- 03/2022 – present **Front-end developer**, Tata Consultancy services [↗](#)
Bangalore, India **FinTech Application**
- Created **Reusable Components**, reducing development time by 20%.
 - Enhanced **data integrity** and **user experience** by implementing frontend **validation mechanisms**. **Provided** inputs for the required criteria before being processed, minimized errors, and improved data quality.
 - Handled multiple **API integrations** with best practices, ensuring smooth functionality and efficacy while meeting coding standards.
 - Maintained the existing application, **tested** and **troubleshooted** the bugs in the least possible time.
 - Developed new features on the platform using **HTML, CSS, JavaScript, and React.js**
 - **Optimized image assets**, transitioning from SVG to PNG formats where applicable. Improved performance and streamlined visual content.
 - Collaborated with cross-functional teams; developed and maintained website functionality; **improved user experience and engagement**.
- Biogen Healthcare**
- Data exploration and visualization using tools like **SQL, Snowflake, and Active-Batch Scheduler**.
 - End-to-end testing of ETL processes using **Informatica ETL** tools for data blending, preparation, and automation. Validated data transformation, integrity, and accuracy in ETL.
 - **Predictive analytics, report creation, and supporting cross-functional teams** for knowledge management and data integrity initiatives.

SKILLS

Technical Skills: React.js. | Tailwind CSS. | JavaScript. | HTML5/CSS3. | Git & Github. | SQL | Responsive Design. | REST APIs | CSS Preprocessors. | Bootstrap. | Google cloud services & Aws. | Babel.js | Jest | Redux

PROJECTS

- 05/2024 – present **Swiggy Clone**, React.js | Tailwind | Redux | Parcel | JavaScript | React Router | Lazy Loading [↗](#)
Developed a food app. Integrated APIs to fetch real-time data and ensured code quality.
- 01/2024 **React Job Board**, JavaScript | React.js | Tailwind CSS | RESTful API | GitHub | JSX | Vite [↗](#)
Integrated React Router and reusable components (cards, hero sections, and job listings).
- 12/2023 **Shopping List**, HTML | CSS | JavaScript | Local storage | Git | GitHub | Testing | Debugging [↗](#)
Developed a shopping list to implement interactive features, form validation, dynamic updates, and integrated local storage.
- Portfolio** [↗](#)

CERTIFICATES

Web Design for Beginners: Real World Coding in HTML & CSS: [↗](#) Udemy

Google Cloud Certified Associate Cloud Engineer: [↗](#) Google skill Boost

Java Programming: Solving Problems with Software: [↗](#) Duke University, Jul 2020

Introduction to AWS for Non-Engineers: 3 Core Services

AWARDS

17/07/2023 **Outstanding performer**, Tata consultancy services [↗](#)
