EDUCATION

B.Tech in Mechanical Engineering,
REVA University, Bangalore, India 

08/2017 – 09/2021

WORK EXPERIENCE

Front-end developer, Tredence

06/2025 – Present | Bangalore, India

- Developed and maintained **interactive analytics dashboards** to help business users analyze **capacity utilization**, machine performance, and plant-level operational efficiency.
- Worked with **webhook-based ingestion pipelines** where incoming data was processed through workflows and stored in **Retool DB** for frontend consumption.
- Developed **scenario-based workflows** to allow users to simulate operational cases and compare them against **best KPI metrics**.
- Implemented a **polling mechanism** to fetch and refresh processed data periodically for near real-time visibility.
- Built **complex visual data representations** for business insights using dashboarding and frontend logic.
- Designed and implemented **visual comparison dashboards** for plants and machine utilization metrics.
- Created **interactive tables, KPI views, and bar charts** to display analytical data in a business-friendly format.
- Collaborated with stakeholders to understand reporting and operational requirements, then translated them into usable frontend solutions.

Front-end developer, Tata Consultancy services 

03/2022 – 06/2025 | Bangalore, India

FinTech Application

- Created **Reusable Components**, reducing development time by 20%.
- Enhanced **data integrity** and **user experience** by implementing **frontend validation**, minimized errors and improved data quality.
- Handled multiple **API integrations** with best practices, ensuring smooth functionality and efficacy while meeting coding standards.
- Maintained the existing application, **tested** and **troubleshooted** the bugs in the least possible time.
- Developed new features using **HTML, CSS, JavaScript, Typescript, Redux** and **React.js**
- Optimized image assets**, transitioning from SVG to PNG formats where applicable.
- Collaborated with cross-functional teams; developed and maintained product functionality; **improved user experience and engagement**.
- Utilized **Electron.js** to develop cross-platform desktop applications, reducing development time by 30%.

SKILLS

Technical Skills: React.js. | Next.js. | Tailwind CSS. | JavaScript. | HTML5/CSS3. | Responsive Design | Material UI | Redux / Redux Toolkit | Plotly.js | REST APIs | Webhooks | VS Code | Postman | CSS Preprocessors | Babel.js | Typescript | Jest | Redux-saga | SQL | Git / GitHub | Bootstrap | Electron.js | Debugging | Google cloud services & Aws.

CERTIFICATES

Web Design for Beginners: Real World Coding in HTML & CSS:  Udemy

Google Cloud Certified Associate Cloud Engineer:  Google skill Boost

Java Programming: Solving Problems with Software:  Duke University, Jul 2020

Introduction to AWS for Non-Engineers: 3 Core Services
